Product Description

The Netis T110PDI-2-130 is a high-performance 8-port PoE switch designed for home and office networks. With 8×10/100Mbps PoE ports and 2×10/100Mbps uplink ports, it delivers stable, high-speed connectivity for IP cameras, access points, and other network devices. Equipped with IEEE 802.3x Flow Control, 2G switching capacity, and a 2K MAC address table, this reliable PoE switch ensures smooth data transmission and easy network expansion. Its plug-and-play design makes installation simple, making it perfect for small business and smart home networking.
