Product Description

The Netis P210EM is a smart cloud-managed PoE switch designed for reliable business and surveillance networks. Featuring 8 PoE Ethernet ports and 2 uplink ports, it delivers a 120W total PoE power budget with up to 30W per port, making it ideal for IP cameras, access points, and VoIP devices. With BeeWiFi remote management, users can monitor real-time port status, reboot ports, rename ports, and restart devices from the cloud. Built-in VLAN isolation, advanced protection, and intelligent network features ensure stable performance, while the durable steel housing provides efficient heat dissipation for long-term operation in professional network environments.
