Product Description

Dell Inspiron 5441-sx8685gry

Experience the next generation of AI-powered computing with the Dell Inspiron 5441 Snapdragon X Plus Copilot+ Laptop. Designed for modern productivity, portability, and intelligent performance, this sleek laptop is powered by the advanced Snapdragon X Plus X1P-42-100 processor with integrated Copilot+ AI capabilities.

Equipped with 16GB RAM and a spacious 1TB SSD, the Inspiron 5441 delivers ultra-fast performance, seamless multitasking, and ample storage for work, entertainment, and creative tasks. The 14-inch WUXGA display with 1920 × 1200 resolution provides crisp visuals, vibrant colors, and an immersive viewing experience with extra vertical screen space.

Built for professionals, students, and remote workers, this lightweight laptop combines long battery life, AI-enhanced features, and modern connectivity to keep you productive wherever you go.
