Product Description

The Lexar® JumpDrive® S80 USB 3.2 Gen 1 Flash Drive offers high-speed performance and reliable storage for all your data needs. With USB 3.2 Gen 1 interface, this flash drive delivers impressive transfer speeds of up to 150MB/s read and 60MB/s write, ensuring quick access to files and seamless data management. Its wide compatibility with both PC and Mac® systems makes it a versatile option for users across various platforms. Whether you're storing important documents, photos, or videos, the Lexar JumpDrive S80 offers a compact, durable solution for fast and secure file transfers. Ideal for professionals, students, or anyone in need of a high-speed USB flash drive, the Lexar JumpDrive S80 ensures effortless file sharing and easy access to your data on the go. With its sleek design and robust performance, this USB 3.2 flash drive provides the perfect combination of speed and reliability for your everyday storage needs.
