Product Description

DJI Mic Mini 2 Wireless Microphone System

Capture professional-quality audio with the DJI Mic Mini 2, a compact wireless microphone system designed for content creators, vloggers, filmmakers, streamers, and professionals. Featuring an impressive wireless transmission range of up to 400 meters, crystal-clear 48kHz/24-bit audio, Bluetooth 5.3 connectivity, and an omnidirectional microphone, it delivers reliable, high-quality sound in any recording environment.

The lightweight transmitter weighs just 11g, making it comfortable to wear for extended shoots. With up to 11.5 hours of battery life on the transmitter and a portable charging case for additional power, the DJI Mic Mini 2 is built to keep up with your workflow whether you're recording interviews, YouTube videos, live streams, podcasts, or social media content.
