Product Description

Take your gaming and performance to the next level with the Lenovo LOQ 15IRX10 Gaming Laptop Core i7-14700HX RTX 5050. Built for gamers, creators, and power users, this high-performance laptop combines Intel's powerful 14th Gen Core i7 processor with next-generation NVIDIA RTX graphics for exceptional gaming, streaming, and multitasking performance.

Powered by the Intel Core i7-14700HX processor, 16GB DDR5 RAM, and a spacious 1TB SSD, the LOQ 15IRX10 delivers lightning-fast load times, smooth multitasking, and the power to handle demanding games, video editing, 3D rendering, and professional workloads. The NVIDIA GeForce RTX 5050 8GB graphics card provides AI-powered performance, ray tracing, and high frame rates for modern AAA titles.

The 15.6-inch Full HD display with a 144Hz refresh rate delivers fluid gameplay, sharp visuals, and reduced motion blur, giving you a competitive edge in fast-paced games. Lenovo's advanced LOQ cooling system helps maintain peak performance during long gaming sessions, while the signature Storm Grey gaming design and backlit keyboard complete its premium look.

Shipped with FreeDOS, the Lenovo LOQ 15IRX10 gives you the flexibility to install your preferred operating system while offering flagship-level gaming hardware at exceptional value.
