Product Description

Product Description

The Acer Aspire Go AG15-21PT-R5GQ Ryzen 5 7520U Touchscreen Laptop is a versatile everyday laptop designed for students, professionals, and home users who want reliable performance with the convenience of a touchscreen display. Powered by the AMD Ryzen 5 7520U processor, 8GB RAM, and a fast 512GB SSD, it delivers smooth multitasking, quick boot times, and responsive performance for work, study, streaming, and everyday computing.

Its 15.3-inch WUXGA touchscreen display with a 1920 × 1200 resolution provides sharp visuals, vibrant colors, and a taller 16:10 aspect ratio for extra workspace. Whether you're browsing, attending online meetings, editing documents, or enjoying entertainment, the responsive touchscreen makes every interaction more intuitive.

Running Windows 11, the Acer Aspire Go combines modern performance, sleek portability, and dependable connectivity, making it an excellent choice for users looking for a feature-rich everyday laptop.
