Product Description

cer Aspire AI A14-52M-72FH Laptop

Experience intelligent performance and modern productivity with the Acer Aspire AI A14-52M-72FH. Powered by the Intel Core Ultra 7 256V processor, this AI-powered laptop is designed for efficient multitasking, productivity, and everyday computing.

Featuring 16GB LPDDR5X RAM and a 1TB PCIe NVMe SSD, it delivers responsive performance and fast storage for your applications, documents, and files. The 14-inch WUXGA IPS display with a 1920 × 1200 resolution provides sharp visuals and a comfortable viewing experience.

Equipped with Intel Arc 140V Graphics and Intel AI Boost NPU, this Copilot+ PC supports modern AI-powered computing experiences. Its sleek Iron finish, backlit keyboard, and lightweight design make it an excellent companion for professionals, students, and users on the go.

Running Windows 11, the Acer Aspire AI combines powerful performance, intelligent features, and portability in a stylish laptop.
